

!! NOTICE !!

B.L.I.P. Pool Sponsors and Team Captains

Please ensure that COMPLETE FIRST and LAST NAMES are included on the Pool League Entry forms. If you prefer to not include any additional requested information, that's your business. It does not get entered into any database or forwarded anywhere anyway. It's been primarily used to more accurately confirm the player names reported.

GET INTO THE HABIT OF REPORTING PLAYER FIRST AND LAST NAMES!!

! IMPORTANT !

Because of the new "Summary-all" report requested and approved at the Fall meeting, I must insist that all hand-written score sheets turned in and online score sheets completed each week contain a full FIRST and LAST NAME for each participant.

Please confirm that you have complied with this requirement for both the home team and the away team before submitting your weekly score sheets, whether handwritten or online. If you do not have 4 players you will need to include the player name "No Show" and a handicap of "7.5" for each missing player.

Home teams are responsible to enter the completed match information via the Online Score Sheet or attach a completed handwritten Score Sheet to the clip-board inside the front entrance to the Kro Bar in Brule before noon on the Saturday immediately following the match.

Incomplete full FIRST and LAST names will be registered as "No Show" with a 7.5 handicap at the time that all currently collected weekly score sheet results are computed, compiled and posted. Untimely re-submissions with corrected full FIRST and LAST names will be ignored except to update the team's player names for the next match. Subsequent incomplete full FIRST and LAST names for already known and recorded players will be subject to the "No Show" and 7.5 handicap requirement.
